

This all cedar playhouse has everything...including the kitchen sink. It also includes a toy stove, telephone, doorbell and clock. There are white and red accents everywhere, including large shutters on the side and two planters on the front. It features a bay window on one side and on the rear. The other side has a snack window with large country shutters that really open and close. An attached bench lets the gang relax while enjoying refreshments. This playhouse will inspire hours of imaginative play for all the kids!
